Tips for Enjoying Apps With Your Child

- **Share the experience**
Enjoy apps together. Use them to spark conversations, sing songs, make up new stories, and play together.
- **Take the experience beyond the device**
Read the print book associated with an app, find books about the animals you see on screen, or if an app talks about colours, point out real life objects with that colour.
- **Make your experience count**
Look for high quality apps, check reviews, talk to other parents and to librarians. Ask your child what they enjoy about the apps they already like.
- **Shape your child's experience**
You know your child best. Choose apps that engage your child's interests. Set limits that you feel are appropriate for your child and your family.

Ask our friendly information staff if you have any questions!
